

AMSA Presentation

TIGER CALCIUM

Gary Mahura

November 16th 2016

TIGER CALCIUM

Reliability

- All Tiger products are manufactured, supplied, and as requested, transported by Tiger's dedicated fleet, ensuring strict control through the product delivery cycle
- As Canada's largest producer, with the largest known reserve of naturally occurring calcium chloride, consistently available local supply is ensured year-round

Quality Industry leading quality control processes driven by superior, best in class product validation processes

- Consistent, batch-by-batch quality monitoring, validated by regular, independent lab testing is part of Tigers established process

Expertise

- Years of work with road builders and maintenance companies in addition drilling partners and service providers in the oil and gas sector has provided a deep understanding of the range of requirements needed to address both everyday and urgent industry needs

LIQUID PRODUCTION & DUST CONTROL

- Production capacity
- Industry leading 35% calcium chloride
- Highly effective soil stabilization and dust abatement solutions and associated expertise
- Supply and apply MB, SK, AB, & BC
- Optimal snow and ice management formulations

DRY PLANT & PRODUCTS

- Only Canadian dry calcium chloride producer
- Dry plant operating to meet local demand
- Product quality and consistency
- Lead time - JTI

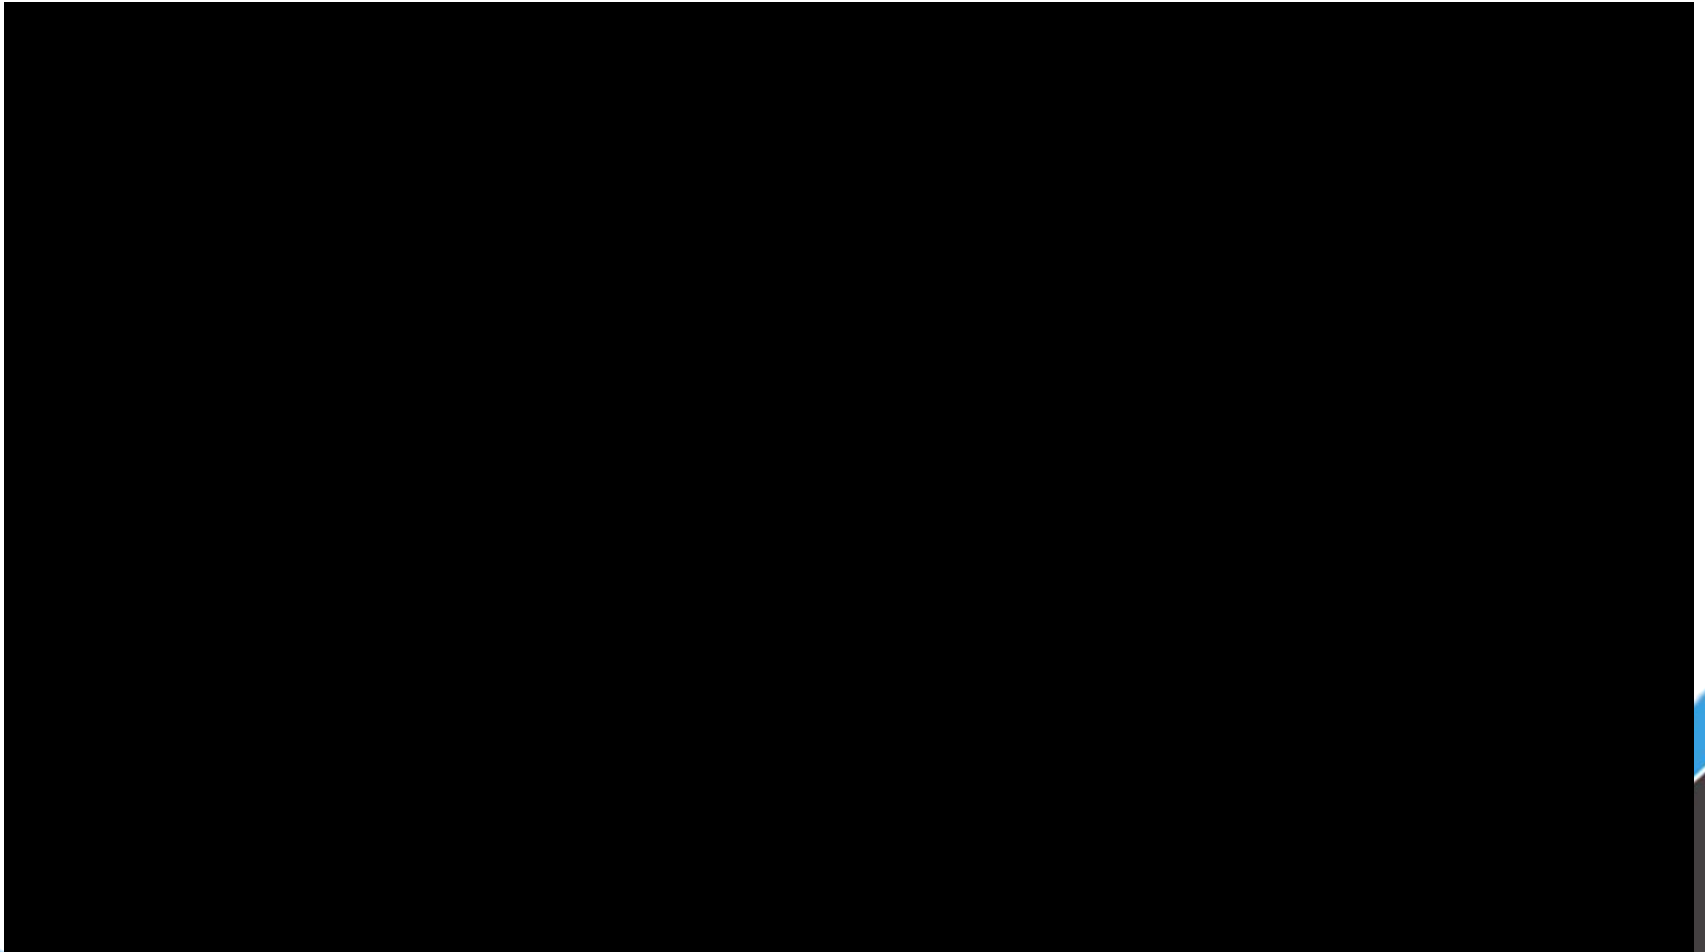

ROAD GUARD PLUS™

- Melts snow and ice down to -45° C
- 84% less corrosive than traditional rock salt brine
- Environmentally friendly
- Safe for vehicles and roads
- PNS approved product
- Only product on Alberta Transportation's "Proven Proprietary Product for De-Icing" list
- Approved by all Western Provinces and many States.

The logo for Tiger Calcium is located at the bottom left of the slide. It features the words "TIGER" in orange and "CALCIUM" in blue, both in a bold, sans-serif font. The text is set against a black background that is shaped like a horizontal oval with a blue border. A thick blue curved line sweeps across the bottom of the slide, passing behind the logo.
